Privacy Policy for PetHeadshotAI.com

Last Updated: December 21, 2025

PetHeadshotAI is operated by **011 Software LLC** ("we," "us," or "our"). We provide the website located at **https://petheadshotai.com** (the "Service").

This Privacy Policy explains how we collect, use, and protect information when you use our Service to generate AI-powered pet headshots. We are committed to protecting your privacy and handling data responsibly.

---

1. Information We Collect

Uploaded Images

You upload photos of your pet to generate headshots.

- Images are processed temporarily.
- We do **not** permanently store uploaded images.
- All uploaded images are deleted immediately after generation.

Email Addresses (Paid Features Only)

If you purchase the full version (watermark removal and extra generations), we collect your email address **only** for the following purposes:

- Sending purchase receipts
- Providing customer support if needed

We do **not** use email addresses for:

- Marketing or newsletters
- Tracking or analytics
- Any other purpose

Email addresses are **automatically deleted 30 days after purchase**.

Payment Information

- We do **not** collect or store payment information (e.g., credit card details).
- All payments are processed securely by **Stripe**.

No Tracking or Analytics

- We do **not** use cookies, analytics tools (such as Google Analytics), or tracking pixels.
- We do **not** track user behavior or identify users via IP addresses.

---

2. How We Process Your Uploaded Images

We use the **Google Gemini API** to generate pet headshots.

- Uploaded images and prompts are sent to Google's Gemini API for processing.
- We do not retain original photos or generated outputs beyond what is required to display the immediate result.
- Generated headshots are stored temporarily and accessed via a unique, random link (UUID).

Note on Google Gemini API

Your images are processed by Google in accordance with their Gemini API Terms of Service and Privacy Practices. Google may retain inputs and outputs for purposes such as safety, abuse prevention, or model improvement, depending on their policies.

Please avoid uploading sensitive images.
We recommend reviewing Google's policies for full details.

---

3. Payments and Stripe

For paid upgrades:

- All transactions are handled securely by **Stripe**.
- We never see or store your payment details.
- Stripe processes payment data under its own Privacy Policy.
- Your email address is used only for receipts and support and is deleted after 30 days.

---

4. Sharing and Visibility of Generated Headshots

- Both free and paid headshots are accessible via a unique, unguessable link (long random UUID).
- Anyone with the exact link can view and download the image.
- Links are effectively private unless shared—guessing them is practically impossible.

- If you share the link publicly (e.g., on social media), the image becomes publicly accessible.
- We are not responsible for images made public through shared links.

---

5. Data Retention

- **Uploaded images:** Deleted immediately after processing
- **Generated headshots:** Retained until manually deleted or expired (expiration may be implemented in the future)
- **Email addresses:** Deleted automatically 30 days after purchase
- **Other personal data:** None retained

---

6. Children's Privacy

The Service is not directed to children under the age of 13. We do not knowingly collect personal information from children.

---

7. Security

We use reasonable technical and organizational measures to protect data during processing and transmission. However, no system can be guaranteed to be 100% secure.

---

8. Your Rights

Because we collect minimal data and automatically delete email addresses after 30 days, formal data access or deletion requests may have limited applicability. You may still contact us with any privacy-related concerns.

---

9. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any changes will be posted on this page with an updated **"Last Updated"** date.

---

10. Contact Us

If you have questions about this Privacy Policy or our data practices, please contact us:
